2021 COVID-19 Guidelines at Caffè Lena

JUNE: Caffè Lena is currently offering 18 socially-distanced pods for parties of 2 to 4 people. Depending on the size of the party at each pod, our potential capacity is 72, or approximately 75% of our normal capacity.

Starting Monday, June 14: Masks are optional for vaccinated patrons, volunteers and staff members. In accordance with NYS guidance for indoor venues, masks are required for non-vaccinated patrons until you are seated.

- Your party will have a private couch or table. Until further notice, we will not be combining parties in one seating area. Please buy your tickets as a group!
- We use portable HEPA filtration units in the performance space. They run on high before and after the show, and they continue to clean the air on a quiet setting during the performance. In addition, UV lighting has been installed in our HVAC ducts to further purify the air.
- Our kitchen is open and our volunteers are ready to take your order for some of our most popular staples: chocolate chip cookies warm from the oven, the farm-to-table cheese sampler, FTO coffee, tea, soft drinks and a carefully selected variety of wine and beer. See our Menu page for current offerings.

JULY Prediction: Assuming NYS has hit its vaccination target and removed restrictions on indoor performing arts venues, we will be adding more tables in July and reducing the distance between tables, while still providing a private table for each party.

AUGUST Prediction: Assuming NYS has hit its vaccination target and removed restrictions on indoor performing arts venues, we will return to fully normal operations on July 29.

Along with our music colleagues everywhere, we strongly encourage vaccination. If you have questions about safety, or have a special need to discuss, please don't hesitate to reach out to us at 518-583-0022 or email sales@caffelena.org.
